

## Expressions of Interest

Hong Kong Applied Science and Technology Research Institute Company Limited (ASTRI) is wholly-owned and funded by the HKSAR Government. ASTRI's public missions are directed towards stimulating the growth of technology based companies in Hong Kong by carrying out research and development projects in selected technology areas and transferring the results to industry for commercialization.

ASTRI has been developing the Mobile Internet Device (MID) based on PXA310 hardware platform. MID is a Wi-Fi enabled device bringing people PC-like Internet experience on the portable device. ASTRI's MID design has incorporated the most popular Internet elements such as social networking making it an ideal solution for people to stay in touch with their families and friends anywhere and anytime.

ASTRI is making this technology available for industry partners such as end-equipment ODM/OEM companies and service providers. We are now soliciting proposals for various collaboration research and development models, including IP licensing, customized designs and solutions contracts based on this technology.

Interested parties are invited to submit expressions of interest to ASTRI, 3rd Floor, Building 6, No.2 Science Park West Avenue, Hong Kong Science Park, Shatin, New Territories, Hong Kong (with reference to "Expressions of Interest"); or email us at [biz@astri.org](mailto:biz@astri.org) on or before 31 JULY 2009. The submission should include details of the company's profile and the preliminary proposal on the cooperation.

For further information about ASTRI, please visit our website at [www.astri.org](http://www.astri.org), or email us at [biz@astri.org](mailto:biz@astri.org).
